

News from the EGS! Call for Courses

The European Glaucoma Society announces a call for course proposals for the EGS Congress in Athens.

Do not miss this opportunity to share your suggestions with the EGS!

All proposals must be submitted through the downloadable form, and sent by email to facultyEGS@oic.it no later than **20 December 2021**.

Click the icon to download
the submission form

- Use a maximum of **300 words**
- Include **3 bullet points** on *what the delegates should achieve by the end of the course*
- Designate 1 Director, 1 Co-Director and a maximum of 4 Speakers
- Do not forget to explicitly state the **conflicts of interest** on the subject of the course

Important notice: All proposals will be evaluated with regards to novelty, scientific content and innovation. However, there are already a certain number of courses planned and the EGS is seeking ideas for courses which could complement the existing preliminary program. Thus, the EGS does not guarantee acceptance of the proposal since the topic might already be covered in the program.
